

AAC Clyde Space premieres newly recorded podcast series

2021-12-22 AAC Clyde Space AB (publ)

AAC Clyde Space today releases a newly recorded pod series focussing on current topics in the space industry. The show is hosted by Moa Skan, a space enthusiast and PhD student in Astrophysics at Stockholm University and among the guests are Sweden's first astronaut Christer Fuglesang, Member of the European Parliament and meteorologist Pär Holmgren, and the Director General of Swedish National Space Agency Anna Rathsmann.

"Together with our guests, I aim to share my fascination over what technology can help mankind with today and tomorrow. We discuss the revival for Moon exploration, how space can help us fight climate change, improve crops and much more. It's going to be a fantastic journey and you don't need to be an engineer to enjoy it", says **Moa Skan**.

The series is mainly in Swedish, and the five episodes released today focus on Moon exploration, weather forecasting, space debris, maritime communications and illegal fishing. The full series can be accessed at AAC's web <https://www.aac-clyde.space/news-insight/podcasts> and at <https://feed.pod.space/spacetalks>

ABOUT AAC CLYDE SPACE

AAC Clyde Space specialises in small satellite technologies and services that enable businesses, governments and educational organisations to access high-quality, timely data from space. Its growing capabilities bring together three divisions:

Space Data as a Service – delivering data from space directly to customers

Space missions – turnkey solutions that empower customers to streamline their space missions

Space products and components – a full range of off-the-shelf and tailor-made subsystems, components and sensors

AAC Clyde Space aims to become a world leader in commercial small satellites and services from space, applying advances in its technology to tackle global challenges and improve our life on Earth.

The Group's main operations are located in Sweden, the United Kingdom, the Netherlands, South Africa and the USA, with partner networks in Japan and South Korea.

AAC Clyde Space's shares are traded on Nasdaq First North Premier Stockholm. Erik Penser Bank AB, e-mail certifiedadviser@penser.se, telephone +46 8 463 83 00, is the Certified Adviser. The share is also traded on the US OTCQX- market under the symbol ACCMF.
