

AAC Clyde Space wins 320 000 EUR order for Sirius Space products

2021-09-30 AAC Clyde Space AB (publ)

AAC Clyde Space, a leading New Space company, has been selected to deliver the Sirius Command and Data Handling system to a new client. AAC will provide a standardized system as qualification model in Q2 2022 in a contract valued at 320 000 EUR (approx. 3.3 MSEK)

The qualification unit will fully reflect all aspects of the flight model design and is used for complete functional and environmental qualification testing.

“Our Sirius range has become a standard product used in a wide range of space missions, appreciated for its high performance and reliability. The long heritage from space flight enables us to deliver standardized systems of the quality necessary to succeed in even the most advanced space missions,” says AAC Clyde Space CEO Luis Gomes.

ABOUT AAC CLYDE SPACE

AAC Clyde Space specialises in small satellite technologies and services that enable businesses, governments and educational organisations to access high-quality, timely data from space. Its growing capabilities bring together three divisions:

Space Data as a Service – delivering data from space directly to customers

Space missions – turnkey solutions that empower customers to streamline their space missions

Space products and components – a full range of off-the-shelf and tailor-made subsystems, components and sensors

AAC Clyde Space aims to become a world leader in commercial small satellites and services from space, applying advances in its technology to tackle global challenges and improve our life on Earth.

The Group’s main operations are located in Sweden, the United Kingdom, the Netherlands, South Africa and the USA, with partner networks in Japan and South Korea.

AAC Clyde Space’s shares are traded on Nasdaq First North Premier Stockholm. Erik Penser Bank AB, e-mail certifiedadviser@penser.se, telephone +46 8 463 83 00, is the Certified Adviser. The share is also traded on the US OTCQX- market under the symbol ACCMF.
