

Anita Bernie proposed to AAC Microtec's Board

2019-05-03 AAC Microtec AB

AAC Microtec AB's nomination committee has decided to propose Anita Bernie to the Board of Directors. Anita Bernie is well reputed in the space industry, having started her career at Airbus Stevenage as a Spacecraft Design Engineer, later joining the small satellite manufacturer SSTL, where she progressed to a position on the Senior Executive Team and since 2018 has been at KISPE Space Systems Limited where she leads strategy and execution.

At SSTL, Anita Bernie was responsible for a wide range of activities to support the company's strategic growth, geographic footprint and brand awareness. She developed commercial strategies, was instrumental in designing commercial missions for a range of international customers and has also closed contracts with institutions such as NASA, the European Space Agency, and the US Air Force.

Anita Bernie is a Batchelor Aerospace Engineer and has a master of Business Administration. She has been co-opted to the AAC Board of Directors since late 2018 where she has received much appreciation for her industry and business acumen plus as well as her very engaged participation in the meetings.

The nomination committee proposes that the AGM re-elects the current board members; Rolf Hallencreutz (chair), Per Aniansson, Per Danielsson and Will Whitehorn. The AGM will be held in Uppsala, Sweden on 23 May 2019.

The Nomination Committee's complete proposal is kept available on the company's website, the company's office, and is sent free of charge to the shareholder who requests it and states his postal address.
