Eevia Health Plc receives a 282 KSEK / 25 KEUR sales order for a Lingonberry extract product

Eevia Health Plc ("Eevia" or "The Company") has received a 25 KEUR sales order for a Lingonberry extract from a Finnish beauty brand.

The end customer is a leading Finnish manufacturer and brand owner of cosmetics marketing and selling high-end products in Europe, Asia, and North America. The company is known for its relentless focus on sustainable development practices and natural product lines.

The sales value of this order is c. 25 000 EUR, and the product is a lingonberry extract standardized on key polyphenols. The order is in line with expectations for repeat sales of this product.

INFORMATION ABOUT EEVIA HEALTH PLC

Eevia Health Plc, founded in March 2017, addresses significant health problems with bioactive compounds extracted from plant materials. The materials are primarily wild harvested from the pristine Finnish and Swedish forests near or above the Arctic Circle. The extracts are sold B2B as ingredients in dietary supplements and food brands globally. These global brands utilize the ingredients in their consumer product formulas.

Eevia Health is a manufacturer of 100% organically certified plant extracts. Although a significant product, Elderberry extract, is made from cultivated berries, most of Eevia's other raw materials, such as bilberry, lingonberry, chaga-mushroom, and pine bark, are wild-harvested in a sustainable fashion.

Eevia Health operates a modern green-chemistry production facility in Finland. Manufacturing natural ingredients near the raw material harvest areas, Eevia offers a short value chain with an environmentally friendly carbon footprint, competitive pricing, and extreme transparency. Eevia listed its shares at Spotlight Stock Market in Sweden in June 2021, with the short name (ticker) [EEVIA](#).
