Adjusting for staff but not for revenue:  
 $1.8 * 22 / 14 = 2.8$  MSEK/month burn? (your guess)

Add 60 MSEK -> 67.5 MSEK Oct 2020.  
 $67.5 / 2.8 > 24$  month (your guess)

# SUMMARY

- Adventure Box makes it easy and fun to make, share and play 3D games online
- Our vision is to become the leading social cloud gaming sharing site for consumer created games. This is a huge market opportunity.
- The market leader today is Roblox but they have technology drawbacks in requiring download and the use of a script language to create which blocks them from becoming the mass market solution.
- To achieve organic viral growth Adventure Box are
  - strengthening our organization
  - achieving product excellence through iterative users testing
  - adding social features such as friends list, notifications and clubs
  - promoting creativity and sharing
  - adding more fun available gameplay and game variety
  - sharing revenue
  - adding multi-making on mobile devices
- When we pass the viral tipping point, we will accelerate marketing
- Prior to passing the tipping point a few hundred thousand users is sufficient for measuring and a few hundred users is sufficient for testing and deep interviews
- We prioritize organic viral growth over revenue but develop revenue for fun and revenue sharing. Within 3 years we should reach 5 USD APRU/year. With viral growth we will add user exponentially.
- We have sufficient funds to succeed
