# Mavshack takes important next step towards producing own content – partners with Filipino production giant Ambientmedia

Mavshack steps up its presence in the Philippines by partnering with award winning production giant Ambientmedia. This new partnership bolsters Mavshack's ability to produce its own content and allows the company to strengthen its presence in the Philippines.

Ambientmedia will act as both Mavshack's production partner and new local representative in the Philippines. The partnership commenced this week and is now in full effect.

"I am extremely happy that Mavshack has formed this partnership with such an important player on the Filipino market. Ambientmedia's experience in the entertainment and production industry is highly valuable for us going forward," says Jonas Litborn, Mavshack's founder and CEO.

Ambientmedia is in the forefront of content development, digital content delivery, augmented reality, motion capture technology and mobile application development in the Philippines. It is the only production company in the country to have produced a full length 3D animated feature. With several award winning productions and a strong portfolio of family and children content, the Ambientmedia and Mavshack partnership is a perfect match for both companies.

"We are delighted to have Mavshack as our partner. This new partnership provides Ambientmedia another avenue to reach an international audience, including the millions of Filipinos who live around the world," says Rains David, CEO of Ambientmedia.
