

Meltron receives break-through order

Meltron has received a significant order for its flagship product and market leading explosion proof lights, the EX, from a global leader in the pharmaceutical industry. The customer made an extensive evaluation through an independent evaluator and found Meltron's gas explosive proof EX lights provides the best performance in its segment with a very competitive commercial position. The order is for more than 400 lights for an upgrade of a plant in the UK and required certain adaptations, which Meltron could manage in a very short time. The order value is approximately 175 k€. Deliveries will be made during the autumn.

- We are delighted to receive yet another order from the pharmaceutical industry, says Ville Sistonen, CEO of Meltron. This proves that Meltron's market leading technology and design keep gaining the trust of very strategic customers. The EX product range is our top of the line product in our portfolio and the pharmaceutical industry is one of our top priorities.

- This order together with our previous orders from the same segment shows Meltron's strength in LED lights for special applications, says Christian Jonsson, Vice President Sales and Marketing at Meltron. This order serves as an important reference and it lays the ground for continued sales growth in Meltron.

About Meltron – “More than Just Light”

Meltron AB designs, manufactures and sells LED lighting solutions which are based on interdisciplinary application of electronics, optics, thermodynamics and nano-structures. “More Than Just Light” translates into energy savings, superior light quality, product life-time savings, increased productivity, safety and wellbeing. Meltron provides high quality solutions for the most demanding environments in infrastructure, industry, logistics and agriculture.

LED lighting is one of the fastest growing major industries of the world. The annual growth of the industrial sector currently amounts to 47 percent, and the entire market is projected to generate turnover of USD 100 billion in 2020, according to Edison Research.

*Meltron's share is traded on NGM Nordic MTF under the ticker **MLTR**.*
