## COMMENTS BY CEO KARL KRISTIAN BERGMAN JENSEN

We have had a good start to the year. Sales increased more than 8 percent in local currencies and 9 percent when converted to Swedish kroner. Earnings per share increased by 94 percent to 0.91 SEK.
A large part of our purchases are made in Swedish kronor and in US dollars. During the period we have been helped by the low rate of Swedish kronor and the low dollar rate, which contributes to our temporary high gross profit margin of 68.5 percent.

We have good control over our costs and with our low debt, our financial situation is strong.
All geographical areas showed a nice development in sales and earnings, and all countries report a positive mood in the trade and optimistic expectations for consumers purchase of food supplements in 2018.

We will focus on accelerating our growth through increased distribution in individual countries, increased innovation pace and increased marketing.

After the end of the period we have attended a fair in Shanghai where there is a lot of interest in New Nordic and our products. We expect to start cross-border sales to China in the second quarter of 2018. This will be a huge step towards further internationalization of New Nordic. However, we expect it will take some time before sales to China becomes significant.
In the second quarter, we will strengthen our quality assurance and further strengthen our export focus through recruitment.

All staff make a great effort and our entire international team is very keen on creating results.
I think New Nordic is in an very exciting development and I expect more growth in 2018.

## Comments to the first quarter

The overall sales increase was satisfactory. Sales growth per region was satisfactory for the Nordic region, Europe and North America.
The gross margin increased to 68.5 percent (67.4), which is due to the fact that the company has negotiated better manufacturing prices and a focus on sales of products with higher margins.
