

Press Release

New sales channel and stocking order from TME

Stockholm, April 3rd, 2019 – H&D Wireless, Sweden's leading supplier of IoT modules and IoT+ RTLS Cloud platforms enters into distribution agreement and receives initial stocking order from Transfer Multisort Elektronik Ltd (TME) on high performance, dual mode Wi-Fi + Bluetooth modules and Evaluation boards. Order value is USD 10K.

"We are very pleased to have received this initial volume stocking order from TME and established a new sales channel for our flagship modules including the SPB228 and SPB209A. We foresee that with TME the customer base will increase rapidly. The Accelerate© module product family was introduced in Q1/2018 and we already have more than 30 customer designs with this module family and we have entered volume production," says Pär Bergsten, CEO and founder of H&D Wireless AB.

"We see a growing demand for this kind of wireless modules with high performance and industry standard specifications for the Industry PC module and generic IoT market", says Paweł Sióda, Product Manager Microcontrollers, Development Tools & Communication Modules, TME

The total wireless modular market is expected to grow by 20 % annually to 29 billion units by 2022, according to Ericsson's mobility report.
