

UNIBAP

Press release August 26, 2022

Unibap receives hardware orders from US distributor for flight missions

Unibap's US distributor Moog Inc. is ordering SpaceCloud® iX5 Engineering Models for 228,800 USD for delivery to customers in the United States.

These follow-on orders by Moog Inc., with a total value of 228,800 USD, meet the demand for iX5-family of products from customers in the United States. These are customers who have selected Unibap's SpaceCloud® solution as the basis for their coming flight missions.

- We have proved our proficiency with several in-orbit demonstrations of our iX5-100 computers, and as a result we see a significant growth in market interest for our solutions. With the announced deliveries to our customers in the US, we continue our exciting and important journey with our flight-proven systems.
