

Press release 2017-11-16

Unibap winner of Subcontractor Jumpstart

Unibap was rewarded first prize and an 100,000 SEK innovation check in the competition "Subcontractor Jumpstart". With the following motivation, Unibap was appointed winner:

Unibap has already proven itself in the market for AI. The jury has paid particular attention to the technical height, uniqueness and team competence.

– We build interdisciplinary solutions based on space engineering, AI and robotics. Together, these areas constitute a strong foundation for intelligent industrial automation. It feels great to get this recognition, says Fredrik Bruhn, CEO of Unibap.

Subcontractor Jumpstart is organized by Elmia Subcontractor, Teknikföretagen ("the technology companies") and Mjärdevi Science Park. This year eight companies were selected as contestants based on their strong growth and groundbreaking technology.
