***Heliospectra** (publ – listed on Nasdaq First North) was founded in 2006 and specialises in intelligent lighting technologies for plant research and greenhouse cultivation. Heliospectra's products are based on a deep knowledge of plant physiology and photosynthesis combined with a unique way of using state-of-the-art LED technology. After six years of development in Sweden, the company is now venturing into the international marketplace. The company has raised more than 15 million dollars in risk capital and has received more than 2.6 million dollars through academic scholarships. It has also won several awards for its forward-thinking technology.*
